Purpose Built Point of Sale Terminal

1. Merchant-facing display – Enables the Merchant to do his business efficiently
2. Customer-facing display – Offering MBS / VAS access to customer
3. Thermal transaction printer – Prints transaction slips
4. Card reader and PIN pad – Accepts all Credit and Debit cards
5. Bar code scanner – Scans Product codes for quick and efficient billing
6. Fingerprint scanner – Captures finger print pattern for Aadhar verification

All the subsystems communicate with each other and with the central processing server using wireless technology.
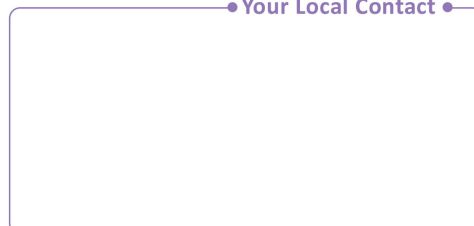

About Pace Automation Limited

Pace Automation Limited (PACE) is a pioneer in providing "Solution as a Service" to leading clients in the retail sector. Established in 1989 as an R&D and Product Development Company with a project grant from IDRC, Canada, PACE has reinvented itself over the years by adapting to technology changes. Today PACE provides end-to-end retail solutions comprising of frontend hardware, intuitive software applications and backend transaction processing services. "RetailSmart" is the latest offering from PACE to "IT" enable the Kirana stores across the country
